ABSTRACT OF THE DISCLOSURE

Phone Number Filter User Interface

A user of a telephone system specifies a set of profiles specifying calls
that will be handled in a certain fashion, the calls may by specified in a
number of ways, such as a) country or area code of origin, particular
originating numbers, originating numbers without ID (telemarketers),
computer-generated calls, and the like;
or b) the calls may be specified according to the status of the recipient,
such as in a meeting, traveling, asleep, and the like; or c) calls that
provide an override code to override an automatic rejection or an
automatic shift to voice mail and ring through.
